The IRS urges taxpayers to choose their tax professional carefully as reports are coming in from around the country describing unscrupulous preparers who instruct their clients to make individual shared responsibility payments directly to the preparer. The IRS reminds individuals who owe the payment that it should be made only with their tax return or in response to a letter from the IRS. The payment should never be made directly to an individual or return preparer. Most people don't owe the payment at all because they have health coverage or qualify for a coverage exemption. In some parts of the country, unscrupulous return preparers are targeting taxpayers with limited English proficiency and, in particular, those who primarily speak Spanish.
